Data Sources for Ryan White HIV/AIDS Program Eligibility

Linking Eligibility
Across the Ryan White HIV/AIDS Program Parts

Eligibility Data Overview

The Ryan White HIV/AIDS Program (RWHAP) requires recipients and subrecipients to verify *that a client meets three core requirements*:

- HIV diagnosis
- Income at or below a set threshold for the household (usually based on a set percentage of the federal poverty level)
- Residency in the service area

RWHAP recipients and subrecipients use a number of different sources of data—in addition to client attestation—to confirm these eligibility criteria. In many cases information can be matched across systems, such as Medicaid, Medicare, or other RWHAP medical care and eligibility systems.

Potential Sources for Eligibility Data

HIV Diagnosis
- HIV Surveillance (HIV testing or labs)
- Physician Report
- Electronic Health Records

Low income
- Pay Stubs
- Tax Returns
- Bank Statements

Residency
- Driver's license or other official ID
- Utility or other bill with address
- HIV Surveillance
- People look up services (e.g. Accurint)

The Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS), provided financial support for this [project / publication / website / etc.]. The award provided 100% of the total costs and totaled $2,000,000. The contents are those of the author. They may not reflect the policies of HRSA, HHS, or the U.S. Government.
